What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS FRANCE, a SICAV.

Term: The Sub-Fund has an unlimited duration. The Management Company may dissolve the Fund by means of liquidation or merger with another fund in accordance with legal requirements.

AMF Classification ("Autorité des Marchés Financiers"): International equities

Objectives: The Fund is a passively managed index-based UCITS.

The Fund's objective is to replicate, both upwards and downwards, the performance of the MSCI China A Net Total Return Index (net dividends reinvested) (the "Benchmark"), denominated in US dollars (USD), while minimising the tracking error between the Fund's performance and that of the Benchmark (the "Tracking Error").

The expected Tracking Error under normal market conditions is indicated in the Fund's prospectus.

The Benchmark is representative of the performance of the "A-Shares" market, i.e. securities issued by large- and mid-cap companies incorporated in the People's Republic of China ("PRC") excluding Hong Kong and Macau, which are traded on the Shanghai and Shenzhen stock exchanges and quoted in Chinese Yuan ("CNY").

Investors' attention is drawn to the specific risks linked with investing in the PRC as further described in the Risk Profile section of the Prospectus.

The Fund aims to achieve its objective through direct replication, namely by investing primarily in the components of the Benchmark.

In order to optimise Benchmark replication, the Fund may use a sampling technique.

Any use of these techniques is indicated on the website amundiETF.com.

The updated composition of the portfolio of securities held by the Fund is stated on the website amundiETF.com.

The MSCI website (www.msci.com) contains more detailed information on
